

# New Orleans: 18 Months After Katrina

## Who Lost What?

This homeowner painted "No Sale, No Developers. I'm staying put!" on her boarded up home.

**Still Unable to Return Home**--250,000 renters and homeowners, mostly African Americans. By Feb 2007 only 632 of the 77,000 home owners eligible for federal Road Home rebuilding funds have received them. Renters receive no funds (64% of N.O. residents rented). Rents have doubled in the "hood" from \$450 to \$850 for a 2 bedroom

**Public Housing--Still Closed.** HUD illegally locked out 4,534 families, disabled & elders from their homes, despite minimal damage. Spent \$.5 M to board/bar the housing. HUD plans to demolish 4,534 units, violating tenants' leases--and the law in 23 ways. Cost? \$175 M more than clean-up. Motive? They plan to rebuild for "mixed" income--only 10% for poor.

**Public schools--Still Closed.** 19 (out of 117) open. 7,500 teachers/staff fired. \$0 funding for Public Schools. Feds sent \$4.8 million to fund private/charter schools.

**Buses--Still Not Running** in poor areas. 55% of Folks have no cars. 30% of jobs lost.

**Only Free Public hospital--Closed** and Slated for Demolition.

**Small businesses** 60% destroyed

## Who Is Benefitting?

**Billionaire businesses** raked in \$9.7 Billions. Only 10% of contracts were local. Wealthy Disaster Profiteers won No-Bid Contracts via political connections and campaign contributions. Waste, fraud, overcharges prevail. Together with city, state and feds, these poverty pimps are looting relief

funds and privatizing N.O. They are grabbing land/housing from low-income and poor people near the French Quarter to expand tourist businesses and provide housing for middle/ upper income residents.

**FLUOR Corp--\$1.4 Billion, SHAW Group--\$950 M, BECHTEL--\$575 M, HALLIBURTON KBR--\$169 M, CARNIVAL CRUISE LINES--\$236 M, LANDSTAR EXPRESS AMERICA--\$286 M, CH2M HILL Inc--\$530 M**  
No-BID contracts for cleanup, housing, reconstruction. Bechtel double billed, *overcharging* \$48 million. The Shaw Group charged 3 times more than an Alabama competitor to tarp roofs--yet SHAW received \$330 M. Ashbritt, Florida Bush friend, received contract to remove debris for \$23 a cubic yard. Four more companies sub-contracted, raking in millions doing no work. Final contractor is doing the work for \$3 a cubic yard!

**Entergy Gas/Electric** made \$9 Million Profit in 2004. Bailed out with \$718 M Katrina \$\$ allocated for poor.

**Military** has occupied N.O at a cost of \$300,000 a week despite full police force and population reduced by half.

**Gov. Blanco** had a \$827 Million Surplus in state Budget, Nov 2006. (Half the population gone, no schools, buses, street lights, services.) Gave raises to city, state, city **Police** and other state **professionals**. Not one penny for displaced persons or other poor people.
